

GREEN SPACE

Almere is the obvious choice if you want a spacious, green environment. As demonstrated by these fantastic gardens. 'A garden is happiness - and our work is creating as much happiness as we can,' says Marjan van Raaijen, describing her eponymous horticultural business. So join the fun!

GARDENS OF DELIGHT

'We translate our clients' requirements into exciting, creative gardens - classic or contemporary. While avoiding fads and trends. A new garden is like a holiday. Planning it is half the fun. You have to ask yourself: what do I enjoy most about a garden?

And there's a story behind every one, for we develop our gardens by fully understanding our client's wishes. And Almere certainly offers us the opportunity and the space to explore those wishes to the full!

Please visit and enjoy our website for more inspiration. ●
